

At Bravadobe we aim to produce life time friends for family, obedience and show. With every litter, we strive to improve the breed in areas of conformation, health and temperament and as such we line breed where appropriate, utilize proven sires within Australia that compliment and strengthen our lines, import semen from other countries to improve in areas of health and purchase dogs from overseas after years of research to gain access to other attributes we are seeking for the breed. Always with the thought of making forward progress with our breeding program.

We don't believe in charging exorbitant amounts for either pet or show quality animals and this has allowed us to be very selective in choosing the best homes for our puppies. In the majority of instances, all puppies are sold well in advance and have found homes in all parts of Australia and overseas. Whether you are interested in a well bred family companion, a sound Dobermann to participate in dog sports or a serious show dog, we welcome your enquiry to see if we can assist you with your individual requirements.

We are extremely excited to announce the prospective mating, via artificial insemination of Summa "Bravadobe Kiss the Boys" to Max "Ch Tornadobe Red Alert WAC".

Max, a substantial, powerful moving male exuded the true Dobermann temperament. A magnificent representative of the breed in his day, even though only shown sparingly, he made his presence known in the ring. Producing numerous champions and best in specialty show winning progeny, Max proved to be just as successful as a sire as he was in the show ring. Max is also the brother of our foundation bitch Chilli "Grand Champion Tornadobe Ruby Tuesday CD WAC ROM".

Summa is the daughter of multi best in show winner Diva "Champion Dassin Diva Las Vegas" and multi best in show and best in speciality show winner Axel "Grand Champion Bravadobe Perfect Crime". Summa's beautiful temperament and gentle nature compliments her amazing pedigree, which includes four grand champions in the first two generations.

We would like to thank both Terry & Derryn Migliore for providing us the opportunity to bring together two great examples of the breed with this up and coming litter which should produce both black/rust and brown/rust stylish puppies.
