

At Bravadobe we aim to produce life time friends for family, obedience and show. With every litter, we strive to improve the breed in areas of conformation, health and temperament and as such we line breed where appropriate, utilize proven sires within Australia that compliment and strengthen our lines, import semen from other countries to improve in areas of health and purchase dogs from overseas after years of research to gain access to other attributes we are seeking for the breed ... always with the thought of making forward progress with our breeding program.

We don't believe in charging exorbitant amounts for either pet or show quality animals and this has allowed us to be very selective in choosing the best homes for our puppies. In the majority of instances, all puppies are sold well in advance and have found homes in all parts of Australia and overseas. Whether you are interested in a well-bred family companion, a sound Dobermann to participate in dog sports or a serious show dog, we welcome your enquiry to see if we can assist you with your individual requirements.

One of our up and coming planned litters is by Atelier "Champion Bravadobe Oh Yes I Can" to our outgoing and cheeky girl Chevy "Bravadobe Baby Did A Bad Bad Thing ET". Atelier is a large black and rust male who despite his very limited show career has had a great deal of success, following in his very successful sires, Phoenix "Champion Bravadobe Voodoo Magic's" footsteps. Atelier is lined bred on some of Australia's and America's top Dobermanns, being Rex "Grand Champion Alldobe Strike It Lucky" and Chase "American Champion Winmar American Gigolo at Dassin". His mother is the beautiful and proven producer of champions, all breeds, specialty and national best in show winners, Bliss 'Champion Bravadobe Divine Destiny'".

Chevy "Bravadobe Baby Did A Bad Bad Thing ET" is sired by our Croatian import Viper "Vaydee Jesse James" who we brought into the country with the view of strengthening working attitudes, cementing strong bone, rich colouring and more importantly great health statistics. Chevy's mother Kaos "Champion Bravadobe Pure Kaos (AI)" is the sister to the last Dobermann National winner and Australia's number one Dobermann in 2010 and 2011, Keno "Grand Champion Bravadobe Pure Anarchy (AI)". Kaos has also produced champion progeny from her two previous litters, Chevy has a strong working drive, always looking to please, however also considers herself a lap dog.

We are extremely excited about this union because they represent two outstanding specimens strongly focused on health of the breed however, also brings all the requirements, i.e. conformation, working drive and temperament to produce some amazing offspring. We will be expecting both black/rust and brown/rust puppies towards the end of 2012.
